

**FOR IMMEDIATE RELEASE**

**AIR-TRANSPORT IT SERVICES, INC. (AIRIT) NAMES T. JEFFREY SHULL  
AS SENIOR VICE PRESIDENT OF AIRPORT SOLUTIONS**

**August 9, 2005, Orlando, FL** -- Air-Transport IT Services, Inc. (AirIT), a key provider of diversified information technology products and services to the air transportation industry, today announced that it has appointed T. Jeffrey Shull to serve as Senior Vice President of Airport Solutions. Mr. Shull will be responsible for the management and development of new sales activities, strategic alliances, emerging technologies, and industry relations.

Prior to joining AirIT, Mr. Shull was the Chief of Staff of the Philadelphia International Airport where he was responsible for the overall management and coordination of the Airport's Executive Staff, including four Deputy Directors. He also managed special projects for the Director of Aviation, including the airport's ambitious air service development initiative. He is a licensed Commercial Pilot and a graduate of the Florida Institute of Technology with a Bachelor's Degree in Aviation Management and Flight Technology. Prior to being appointed Chief of Staff, Mr. Shull was the Airport's Director of Security and Systems Technology (1995-2000), responsible for developing and implementing the airport's information technology and security systems strategy. He has held various other positions with the Airport since 1991. Prior to joining the Airport Staff, he worked in numerous capacities for Continental Airlines and US Airways.

"We're very excited to have Jeff Shull join the AirIT team. His airport and airline management experience will further AirIT's position as an industry leader of turn-key IT solutions. Our IT solutions along with Jeff's experience in air service development will help us provide our clients and potential customers with creative new airport solutions and the expertise to realize the benefits of these technologies." said Betros Wakim, president and CEO of AirIT.

**About Air-Transport IT Services, Inc.**

Air-Transport IT Services, Inc., with corporate offices in Orlando, Florida, offers airports and airlines information technology systems that enable them to deliver, display, manage and employ information that improves operations, customer satisfaction, and revenue generation. The company's airport operational and revenue management solutions are the most comprehensive offering available to the global air transportation industry. AirIT solutions are based on open systems and run in a client/server and web based environment. In addition to its product offerings, AirIT also provides consulting services, network installation and 24 X 7 support.
