

**FOR IMMEDIATE RELEASE**

**AIR-TRANSPORT IT SERVICES, INC. IS AWARDED MCCARRAN  
INTERNATIONAL AIRPORT CONTRACT TO PROVIDE AIRPORT  
PROPERTY AND REVENUE MANAGEMENT SOFTWARE SYSTEM**

**August 2, 2005, Orlando, FL** -- Air-Transport IT Services, Inc. (AirIT), a key provider of diversified information technology products and services to the air transportation industry, today announced the award of the contract to provide the McCarran International Airport with the comprehensive software and implementation services for an airport-specific property and revenue management software system. The purpose of the commercial off the shelf software (COTS) system, PROPworks®, is to facilitate the management of and billing for the activities and agreements that generate the majority of an airport's revenue. The PROPworks® modules selected by McCarran International consist of Agreement Management, Contact Management, Billing & Invoicing, Retail Sales Management, Aeronautical Statistics, Risk & Surety Management, and Cash Posting.

“This PROPworks® project is very important for AirIT and represents the ideal property and revenue management solution for McCarran – an airport with a very strong concessions program,” said Betros Wakim, president and CEO of AirIT. “We are excited about the opportunity to partner with the Clark County Airport System and provide another leading airport with a proven solution.”

“AirIT was selected for this project because of the experience of their consultants and the success that other high traffic airports have had with PROPworks®. We look forward to a long-term relationship with AirIT,” said Alan Stewart, Assistant Director of Finance for the Clark County Airport System.

**About Air-Transport IT Services, Inc.**

Air-Transport IT Services, Inc., with corporate offices in Orlando, Florida, offers airlines and airport IT systems that enable them to deliver, display, manage and employ information that improves operations, customer satisfaction, and revenue generation. The company's airport operational and revenue management solutions are the most comprehensive offering available to the global air transportation industry. AirIT solutions are based on open systems and run in a client/server and web based environment. In addition to its product offerings, AirIT also provides consulting services, networking and installation, and 24 X 7 support.
