AIR-TRANSPORT IT SERVICES, INC. ANNOUNCES THAT METROPOLITAN WASHINGTON AIRPORTS AUTHORITY WILL HOST THE 7th ANNUAL PROPWORKS® USER CONFERENCE

February 8, 2005, Orlando, FL -- Air-Transport IT Services, Inc. (AirIT), a key provider of diversified information technology products and services to the air transportation industry, today announced that the Metropolitan Washington Airports Authority (MWAA) will host the 7th Annual PROPworks® User Conference to be held at the Washington Marriott Hotel in Washington D.C. on May 17th – 18th. With more than 40 airport and seaport PROPworks® Property and Revenue Management customers, the conference gives users the opportunity to provide interactive product feedback as well as gain valuable insight from AirIT staff and other PROPworks® customers. The three day event will also include an optional training day; product working group sessions; and knowledgeable guest speakers from the air-transport and financial industry. This year's conference will be held in conjunction with AirIT's release of PROPworks® 6.0 and their new Carrier Activity Tracking (CAT 3) module.

"MWAA is proud of its long-term involvement with PROPworks®. We look forward to hosting this year's user conference in beautiful Washington, D.C." said Mark Tune of the Metropolitan Washington Airports Authority.

"We're very excited and proud that MWAA will host the 2005 PROPworks® User Conference. We look forward to working with MWAA on what will certainly be another successful user conference in the back drop of a world-class city", said Betros Wakim, president and CEO of AirIT.

About Air-Transport IT Services, Inc.

Air-Transport IT Services, Inc., with corporate offices in Orlando, Florida, offers airlines and airports IT systems that enable them to deliver, display, manage and employ information that improves operations, customer satisfaction, and revenue generation. The company's airport operational and revenue management solutions are the most comprehensive offering available to the global air transportation industry. AirIT solutions are based on open systems and run in a client/server and web based environment. In addition to its product offerings, AirIT also provides consulting services, networking and installation, and 24 X 7 support.
